

# StarDust *Lamp Shades*

*..Light poetry..*

Light designer Marc de Groot creates light poetry by translating structures, ratios and patterns derived from nature into poetic, spatial lighting designs. With Japanese precision he designs lighting like it is metal origami, combining traditional handcraft with modern techniques.

New Lighting design !

StarDust Wall consists of dots and lines with different sizes and appearances. With irregular quadrilaterals, pentagons and hexagons, Marc de Groot manages to create a perfect spherical shape. StarDust spreads light like a starry sky projected on Earth and refers to our galaxy.
